

**DEPARTMENT OF ENVIRONMENTAL QUALITY NOTICE OF PUBLIC MEETING AND AN
OPPORTUNITY FOR PUBLIC COMMENT**

PUBLIC MEETING: September 9, 2009 at the Richmond County YMCA, 13207 History Land Highway, Warsaw, VA 22572. An afternoon public meeting will be held from 2-4pm and the evening public meeting from 6-8pm.

PURPOSE OF NOTICE: The Virginia Department of Environmental Quality and the Department of Conservation and Recreation are announcing the completion of a study to restore water quality for a shellfish growing area, a public comment opportunity, and two public meetings.

MEETING DESCRIPTION: Final public meetings on a study to restore water quality for shellfish growing areas along Totuskey and Richardson Creeks which are impaired due to bacterial violations in Richmond Co.

DESCRIPTION OF STUDY: Virginia agencies are working to identify sources of the bacterial contamination in the shellfish growing waters of these (tidal) Creeks including their tributaries. These streams are impaired for failure to meet the designated use of shellfish consumption because of bacterial water quality standard violations. Totuskey Creek also has a recreational impairment (swimming). The recreational water quality standard is less stringent than that of the shellfish standard, therefore it is expected that clean-up efforts aimed at restoring the shellfish use will also result in attainment of the recreational use. The study reports the status of the Creeks via sampling performed by the Virginia Department of Health - Division of Shellfish Sanitation, shellfish area condemnations and the possible sources of bacterial contamination. The study recommends total maximum daily loads, or TMDLs, for the impaired waters. A TMDL is the total amount of a pollutant a water body can contain and still meet water quality standards. To restore water quality, bacterial levels have to be reduced to the TMDL amount. The draft report for the study is available at <https://www.deq.virginia.gov/TMDLDataSearch/DraftReports.aspx>.

HOW TO COMMENT: DEQ accepts written comments by e-mail, fax, or postal mail. Written comments should include the name, address, and telephone number of the person commenting and be received by DEQ during the comment period, which will expire on October 8, 2009. DEQ also accepts written and oral comments at the public meeting announced in this notice.
